Finished!

The Magic of Me Affirmation Crown

Purpose of Activity

Students love the opportunity to display proud moments, so why not let them display an affirmation they are proud of? Once finishing the book, students can create these crowns as a way of showing others around school that they are kind, strong, healthy, etc.

Materials Needed

Teacher

- White or Astro Bright Paper (teacher preference)
 - Card Stock Paper
 - Stapler or Glue
 - Scissors

Student

- Pencils/pens
- Crayons/markers
 - Scissors
 - Glue

How to Assemble

Before starting assembly, students will decide which affirmations they would like to use with their crown.

Crowns need to be cut on the dotted lines for affirmation strips to be thread through properly.

Once students have decided on which affirmations, they will cut out the strips on the dotted lines and then glue their strips as one long strip.

With teacher guidance, students will thread their affirmation strip through the cut lines on their crown. Students will then glue their strip together to form a circle with the crown facing the front.

Please use the pictures provided for reference.
